INTRODUCTION

This is the fourth edition of the Directory of Services Offered to Disabled Persons in New Brunswick. We have tried to make all changes that have taken place in programs and services in the course of the past year and to include all new services. Should you find any errors in listings or be unable to find a particular service, please feel free to contact our office to let us know.

Our intentions are to provide a descriptive list of services and programs offered by non-profit organizations or government to the people of the province with handicaps or disabilities. It is not our goal to evaluate the services listed in the directory or to judge their degree of professionalism. We are not responsible for these services. However, if you experience problems in accessing a service, or if a service does not correspond to the description given in the directory, we would like to be made aware of it.

This year, the Department of Health and Community Services has assisted us by providing a person to help transfer this information to a computer system for easier access and future revision. As the demand for our directory is ever increasing, and new services are always being developed, this will enable us to make revisions and to distribute new editions at a faster rate.

THE ALCOHOLISM AND DRUG DEPENDENCY COMMISSION OF NEW BRUNSWICK

Head Office:

65 Brunswick Street
P. O. Box 6000
Fredericton, N.B. E3B 5H1

Telephone: 453-2136

The Commission offers two distinct divisions of programming to residents of the province. The first is under the Community Services Division, while the other relates to the Treatment and Rehabilitation Services Division.

Community Services is responsible for all programs of an educational or preventative nature. This includes programs in the schools, employee assistance programs in the workplace, judiciary system programs and special group programs.

Counsellors are available from the division to intervene in problematic situations involving drugs at any level in the community, and services will be tailored to meet the needs of any specific group.

Programs such as the Short, High Impact Program (SHIP) for first-time convicted impaired drivers, Employee Assistance Programs (EAP) and referral agent course, Safe Graduation, Student Assistance Program, Videotox, and Peer Counselling are all available through the commission.

Treatment and Rehabilitation Services are provided both through residential in-patient programs and through out-patient counselling. Detoxification services are provided to any resident through the Commission's treatment centres in seven locations in New Brunswick. Rehabilitation services are provided through 28-day in-patient programs in Campbellton or Saint John. There is also an extended care centre, Lonewater Farm, for men.

Out-patient counselling, consultations and assessments are available to clients who are unable to attend an in-patient program or for whom an in-patient program is deemed unnecessary. Various other educational programs for clients' families or significant others, or tailor-made programs for individuals, are also available from the commission.

The following childhood services (early intervention, kindergarten and day care programs) are intended specifically for children with handicaps, disabilities or other difficulties:

Early Family Intervention Inc.

1111 Mountain Road
Moncton, N.B. E1C 2S9
Telephone: 384-9072

Early Family Intervention Inc. provides services to children who have emotional, social and educational difficulties. It offers a playschool program for children 2 and 3 years of age, a preschool program for 4-year-old children and a kindergarten program for 5-year-old children.

One day per month, one parent must spend a full day in class with his/her child and must also attend group sessions one half day a week for 32 weeks. The parents are also invited to spend a weekend of family retreat once a year.

Also offered is a summer program for which university students are hired to work with families of children attending the program.

Transportation services to get to class are offered to both the children and the parents.

Early Intervention Program

210 Wentworth Street
Saint John, N.B. E2L 2T3

Telephone: 642-2380

Early Intervention is a direct-home service to families who have a child, birth to six years, experiencing a delay in development due to any cause. The program focuses on providing families with the necessary guidance, training and support to better enable them to understand and adjust to their child.

Each family is assigned a counsellor who visits the home weekly and together with the family assesses, develops and up-dates individual programs for the child. She demonstrates activities that will allow the child to learn through play. Assistance is provided in locating other services that may be required.

A counsellor facilitates the integration of children into programs within the community.

Parents may become involved in the Parent Support Group. This group provides a network for parents to share ideas, information and provide support to one another. Parents have the opportunity to attend a number of workshops and training sessions on a variety of topics, as well as to become involved in parent and child sessions.

Early Intervention Program

65 Brunswick Street
Fredericton, N.B. E3B 1G5

Telephone: 454-8698

An individualized in-home program for children with developmental delays. Primary focus is on the first three years of age with follow-up to the preschool level. Encourages parents to make use of community resources as well as become effective advocates for their special-needs children.

Early Intervention Program

P. O. Box 1803, Elm Street
Sussex, N.B. E0E 1P0

Telephone: 433-6206

This program provides individualized developmental programs for children from birth to five years displaying developmental delays. This includes regular in-home visits from a counsellor to provide parents with information and training sessions that will help enhance their child's progress. At age three, children are integrated into community-based pre-school programs. Support is provided to the child and to the pre-school instructors to develop individual programs for the child's needs.

Centre d'animation l'arc-en-ciel, inc.

The length of time a patient stays as an inpatient varies, depending upon the nature of the disability and the patients motivation to respond. The average stay is 40 days. When a plateau is reached, the patient is normally discharged.

Cost to the Patient:

The Rehabilitation Centre is a publicly-funded New Brunswick hospital. Care and treatment are provided without direct cost to each patient. Assistance in funding special equipment needed by the patient is available upon request.

Admission Procedure:

Any licensed physician may refer a patient to the Centre for assessment and/or treatment. Inpatient and outpatient referral forms are available for this purpose. The medical director will screen all inpatient referrals and advise the physician and patient accordingly.

Discharge Planning:

Discharge planning begins the moment the person is admitted to the Rehabilitation Centre. Involvement of the family, physician and community agencies is encouraged throughout the rehabilitation program. They play an important role in the resettlement plan. The referring physician will receive a written report following the discharge of the patient.

HEALTH SERVICES:

Services provided to disabled persons by the Department of Health and Community Services are:

Pediatric Active Service Programs - This program provides specialized pediatric, cardiology, neuromuscular, genetic neurology and cleft palate clinics for children with a congenital or acquired disability up to and including age 17. Maintains a central registry of chronically handicapped children.

Newborn Screening Program - These test are done in hospital on all babies born in the province for 2 birth defects: phenylketonuria (PKU) and hypothyroidism.

Congenital Anomalies Surveillance - This surveillance is coordinated with the federal government and the family physician. Specialized services are offered to prevent further handicaps and to develop appropriate plans for care.

Audiology Program - Children up to age 17 with a hearing impairment are provided with hearing aids and covered for maintenance of aids, support services and referral to other services.

Orthopedic Program - Rehabilitation services are offered for the physically disabled child. Financial assistance is provided for prosthetic devices and their maintenance.

Cystic Fibrosis Program - Two major components of the cystic fibrosis program are provided through the paediatric clinic program. Drugs are provided free through the Prescription Drug Program and monitored closely by the pediatrician. Equipment is also made available to cystic fibrosis patients when needed. This service involves the ordering of equipment and maintenance.

Immunization Program - This program provides protection against many disabling-related diseases and conditions and is carried out by community health nurses and physicians. Immunization is compulsory for all children entering school.

School Health - Examinations, counselling and immunizations are offered by public health staff who visit all schools on a regular basis.

Preschool Clinics - Children are assessed for hearing and vision problems, and counselling is provided to parent and child prior to Grade One entry.

Pre-natal Courses - These courses are offered to pregnant women and their spouses.

Home Care Program - This program provides nursing care, health supervision and counselling in the home to prevent extended hospital stays and nursing home placements.

Renal Dialysis Program - This program provides home dialysis equipment, supplies and drugs and appropriate training in the use of equipment to people suffering from kidney failure.

Regional Physiotherapy - This program provides community physiotherapy through the home care program and provides consulting services in some regions.

Regional Nutrition Services - Nutritionists counsel public health nurses to provide nutrition education through clinics, school, community and home visits.

Home Visits - Periodic home visits are made to people with long-term illnesses (diabetes, cystic fibrosis, etc.) to guide and assist family members in their care.

Dental Health - Preventative clinics are offered during the summer for children ages 5 to 12. Fluoride mouthrince is offered during the school year to children in Grades 1-6. Dental hygienists visit preschool clinics and day care centres. They also visit schools, counselling children in Grades 1-3.

Seniors' Rehabilitative Equipment Program - This program provides environment and mobility equipment for people aged 65 and over.

Community Mental Health - Outpatient consultation, assessment, treatment and rehabilitation services are provided through clinics in each of the regions for both adults and children. In addition, staff travel to smaller locations on a regular basis. Support for the regional services is provided by the 2 psychiatric hospitals in Saint John and Campbellton. In-patient care is also available at the Saint John Regional Hospital, the Campbellton Regional Hospital, Hotel Dieu Division, the Moncton Hospital, the Dr. Everett Chalmers Hospital in Fredericton, the Dr. Georges L. Dumont Hospital in Moncton, and the Chaleur Regional Hospital in Bathurst.

Medicare - Medicare is a government-funded program covering the cost of medically required services provided by physicians, certain surgical-dental procedures performed by a dental surgeon in a hospital, and certain vision services provided by optometrists and ophthalmologists to residents 18 years of age and under.

Hospital Services - Hospital in-patient, out-patient diagnostic and treatment services. A variety of rehabilitation services are available at regional and district hospitals, as well as the Forest Hill Rehabilitation Centre.

Extra-Mural Hospital - This is a program designed to provide hospital services at home. It provides assessment, rehabilitation, acute care at home, and support for chronically disabled, terminally ill, and children with neuro-developmental disorders. The Extra-Mural Hospital is available in Woodstock, Shediac, Moncton, Fredericton, Bathurst, Acadian Peninsula, Miramichi and Saint John (palliative care only). It is being expanded to cover the Province as resources permit.

Nursing Home Services - The province has 67 licensed nursing homes which provide nursing care, personal care, rehabilitation service and assistance with the activities of daily living of over 4,400 residents. Most of the nursing homes have the necessary facilities to care for disabled persons. All individuals requesting admission to a nursing home are assessed by public health nurses to determine eligibility for admission.

Prescription Drug Program - This program is available to residents of the province aged 65 or older or those who reside in a licensed nursing home or have cystic fibrosis. Residents who receive organ transplants and require the drug Cyclosporin are also covered by this program for that drug only. The program is designed to pay for most drugs which, by law, require a prescription. Drugs must be dispensed by a New Brunswick pharmacy (excepting in Lubec and Machias, Maine). For information call toll free 1-800-332-3692 (Moncton 853-4515).

Health Services Program - This program covers the cost of prescription drugs for eligible income assistance recipients and their dependents, and child welfare cases.

Seniors' Health Benefits Program - This program provides a range of benefits to senior citizens with special needs. Benefits include injection supplies, diabetic testing supplies, ostomy supplies, eye care, hearing aids, foot care, orthotic devices, prosthetics, chiropractic care and tracheotomy supplies. There are coverage limits on some of the above. For information call toll free 1-800-332-3692 (Moncton 853-4551).

COMMUNITY SOCIAL SERVICES FOR CHILDREN WITH SPECIAL NEEDS:

The "Community-Based Services for Special-Needs Children" program is a provincial government initiative under the specific direction of the Ministers of Health and Community Services and of Education. The ultimate goal is to provide a comprehensive system for serving all eligible special-needs children in the nurturing atmosphere of their home and community.

A child with special needs is described as one whose specific disorder or disability has been or is likely to be long term. Furthermore, the child's family and existing community services are not able to adequately meet the health, social and educational needs of these children.

Specific Community Social Services which are available through the Community-Based Services Program are as follows:

Interdisciplinary Assessment - The services offered to meet the needs of each child are based on the results of an assessment by an interdisciplinary team of professionals. An individual service plan is then developed for each child, based on the child's strengths and needs.

Service Coordination - A service coordinator is assigned to each child and family receiving services to ensure the continuity and coordination of services necessary to meet the child's special needs.

Respite Care - Respite and emergency relief care are provided to a child with special needs for the purpose of providing relief to the family from the daily responsibilities of caring for their child.

Family Support Services - Family Support Services are a comprehensive range of services offered to provide support to the child and his/her family.

Residential Resources - Residential resources are available to children whose needs are such that they cannot be met in their own families.

Financial Support - Families caring for a child with special needs at home experience extraordinary child-care costs directly related to the special needs of the child. Families who are financially unable to meet the needs of their child may receive financial assistance to purchase necessary services and special items.

Other Community Social Services programs for children include prevention, protection and support services such as:

- Child Protection/Support
- Adolescent Parent and Child Services
- Children's Day Care
- Child Care Services

More information on any of these programs can be obtained by contacting one of the Regional Offices of Community Social Services.

COMMUNITY-BASED SERVICES FOR DISABLED ADULTS:

The Community Services Division of the Department of Health and Community Services provides the following services to disabled adults.

Residential Services - The Department approves and funds quality residential facilities for persons whose physical and/or mental abilities are limited but who do not need nursing care. Assistance and care in the facilities include services that are developmental, rehabilitative, protective, supervisory or therapeutic in nature.

Vocational Services - 1) Sheltered Training and Employment Program (STEP) - This provides vocational training and support services for disabled persons through the utilization of controlled work environment. Services are goal-oriented, designed to move the disabled participant toward regular employment with training dependent on the needs and abilities of the target population. 2) Vocational Rehabilitation of Disabled Persons (VRDP) - This program is designed to improve the employability of persons who have physical, sensory, and/or mental impairment. Services offered include assessment, vocational counselling, training, restorative and support services, as well as employment supplies and services.

Community-Based Services for Disabled Persons - Emergency or essential services are available on a case-by-case basis in all regions. Services offered include assessments, homemakers, Meals on Wheels, respite care, trainers and service co-ordination.

RESTIGOUCHE ASSOCIATION FOR INJURED WORKERS

P. O. Box 689
Atholville, N.B. E0K 1A0

Telephone: 753-7528

This association is composed of injured workers, their spouses and interested others. The group meets once a week to share with others who have had similar experiences. They try to find solutions to difficulties encountered in dealing with the Workers' Compensation Board, doctors, employers, family members, etc. They guide each other and, when necessary, seek the assistance of professionals. One of their goals is to inform other workers of their rights when an injury occurs at work. They are presently trying to obtain an office of the Workers' Compensation Board in the northern part of the province and a rehabilitation centre and doctors so that injured workers can be served in their own language.

ROTARY CLUBS

There are local Rotary Clubs around the province. These groups are involved in fund-raising activities to assist physically disabled children. Some of the clubs offer scholarships to disabled persons who pursue a higher education or to persons who work with disabled persons or students who plan to work with disabled persons. If you are unable to make contact with the appropriate representative, contact the Premier's Council on the Status of Disabled Persons at 452-1112 or 1-800-442-4412.
